

Impax Global Opportunities Fund

Q1 Fact Sheet | All data as of 03/31/2024

Investment overview

A global equity strategy that invests in companies positioned to benefit from the transition to a more sustainable global economy.

- The Fund seeks to invest in companies with track records of generating consistent returns, that demonstrate predictable above average free cash flow, and where the portfolio managers believe a company's long-term opportunities are not reflected in today's share price.
- The proprietary Impax Sustainability Lens identifies durable companies best positioned to seize opportunities and mitigate risks arising from the transition to a more sustainable global economy.
- A bottom-up fundamental investment process, including ESG research integration, results in a high conviction portfolio of 35 to 45 companies that is well diversified by sector and region.

Important information

RISK: Equity investments are subject to market fluctuations, the fund's share price can fall because of weakness in the broad market, a particular industry, or specific holdings. Emerging market and international investments involve risk of capital loss from unfavorable fluctuations in currency values, differences in generally accepted accounting principles, economic or political instability in other nations or increased volatility and lower trading volume. The Fund is actively managed. The investment techniques and decisions of the investment adviser and the Fund's portfolio manager(s), including the investment adviser's assessment of a company's ESG (Environmental, Social and Governance) profile when selecting investments for the Fund, may not produce the desired results and may adversely impact the Fund's performance, including relative to other Funds that do not consider ESG factors or come to different conclusions regarding such factors.

Environmental, social, and governance (ESG) criteria are a set of standards for a company's operations that socially conscious investors use to screen potential investments. Environmental criteria consider how a company performs as a steward of nature. Social criteria examine how it manages relationships with employees, suppliers, customers, and the communities where it operates. Governance deals with a company's leadership, executive pay, audits, internal controls, and shareholder rights.

The Global Opportunities Fund's investment adviser has contractually agreed to reimburse expenses (other than interest, commissions, taxes, extraordinary expenses and Acquired Fund Fees and Expenses, if any) allocable to Institutional Class and Investor Class shares of the Global Opportunities Fund to the extent such expenses exceed 0.98% and 1.23% of the average daily net assets of Institutional Class and Investor Class shares, respectively. This reimbursement arrangement may not be amended or terminated without the approval of the Fund's Board of Trustees before May 2, 2023.

Figures include reinvested dividends, capital gains distributions, and changes in principal value.

The **MSCI ACWI (Net) Index** is a free float adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The MSCI ACWI consists of 50 country indexes comprising 23 developed and 27 emerging market country indexes. The developed market country indexes included are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, United Kingdom and United States. The emerging market country indexes included are: Argentina, Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Kuwait, Malaysia, Mexico, Pakistan, Peru, Philippines, Poland, Qatar, Russia, Saudi Arabia, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates. Performance

for the MSCI ACWI Index is shown "net," which includes dividend reinvestments after deduction of foreign withholding tax.

One cannot invest directly in an index.

Weighted Average is an average in which each quantity to be averaged is assigned a weight. These weightings determine the relative importance of each quantity on the average.

Standard Deviation measures a Fund's variation around its mean performance; a high standard deviation implies greater volatility.

Beta reflects the sensitivity of a Fund's return to fluctuations in its benchmark; a beta for a benchmark is 1.00; a beta greater than 1.00 indicates above average volatility and risk.

Alpha is a coefficient measuring risk adjusted performance, considering the risk due to the specific security, rather than the overall market. A positive alpha reflects relative risk adjusted performance of the Fund versus its benchmark.

R-Squared is a measure of how much a portfolio's performance can be explained by the returns from the overall market (or a benchmark in dex). The measure ranges from 0, which means that the Fund's performance bears no relationship to the performance of the benchmark, to 100, which means that the Fund's performance is perfectly synchronized with the performance of the benchmark.
